Model ALSD and ALSDVH are single (vertical) and double (vertical + horizontal) deflection spiral slot diffuser. Model ALSD and ALSDVH are excellent diffusers to be used on spiral duct because a saddle is not needed; these diffusers can be mounted directly to the spiral duct. Both models have adjustable blades and are gasketed on margin. Both models are also available with an optional Air Scoop with face screw adjustment. Extruded aluminum construction. Finishes are White or Clear Anodized.
