Subject: Model SW and CV special gas vent

Dear Authorized Hart & Cooley & American Metal Products Distributor:

Effective January 9, 2012, we will no longer be using the Model SW and CV special gas vent part number scheme, but converting over to the Heat-Fab part numbers for EZ Seal single wall (3"-16" sizes) and Sealed Combustion double wall (3x5, 4x7 sizes). The attached excel file shows the part number conversion over to the Heat-Fab part list.

The multiplier will also be changed and not follow the normal H&C/Amerivent discount schedule that is applied to other venting products. The list pricing is attached and the standard discount for Heat-Fab AL29-4C products will be 0.50. The list pricing is also available on the pricing portal.

We will also be discontinuing our Heat-Fab SGV/DGV special gas vent product line on January 9. For those carrying any inventory, there will be EZ Seal to SGV conversion adapters available indefinitely.

Kind Regards,

Keith Page  
Product Manager
