

MODEL VC-9

VOLUME CONTROLLER

STANDARD INDUSTRY TOLERANCES APPLY. SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE.

Model VC-9 Volume Controllers limit air volume and provide even air distribution over entire surface of outlet. Installs in duct behind grille, in collar extension or junction of duct and branch take-off. Deflecting vanes operate individually and are manually set to obtain desired volume. Louvers spaced on 1/2" centers. Steel construction. Standard finish is Black.
